

KROMACHEM

Environmental Policy

Kromachem Ltd is a professional and environmentally conscious organisation which is fully committed to conserving and protecting the environment.

To achieve this Kromachem Ltd has developed an Environmental Management System certificated to ISO 14001. Together with our already established ISO 9001 Quality System this forms part of an Integrated Management System (IMS). The company will promote the use of the IMS with its approved external providers, customers and other interested parties.

The Company is committed to:

- Ensuring that we comply with all applicable environmental legislation and regulations
- The prevention of pollution and continual improvement of its environmental performance
- Increasing recycling and reducing all forms of waste
- Maintaining an Environmental Management System that will set clear environmental objectives and targets and regularly monitor progress against them
- Communicating requested information on environmental performance to staff and any other responsible body having reasonable need for it
- Ensuring that all employees have received adequate training on the IMS and their individual responsibilities
- Minimising the impact of operations through effective planning and adequate provision of resources
- Influencing external providers and customers to develop a similarly concerned approach to the environment
- Procuring products and services that minimise environmental impact
